Need 2: Family Support

With a major deployment, approximately ***50,000*** family members would be left without support from the deployed MEF RMTs.

What kind of needs will they have?

The ones chaplains are currently providing—worship, religious education, pastoral counseling, referral services

And…

In the worst case

the nation, DoD and Camp Pendleton Chaplains would need to meet catastrophic demands for:

- Funeral / Memorial Services
- Bereavement Counseling
- Survivor Recovery Support
- CACO Call Assistance

Need # 3 : Command

In the Camp Pendleton SPLAN it says:

The Base Chaplain is responsible for coordinating a full program of pastoral care, religious education, and sacramental ministries aboard MCBCP

Specifically……

1. Ensures Chaplains are provided to the MSB during mobilization.

2. Ensures Chaplains are made available to conduct casualty calls, if required.

3. Assist AC/S, Manpower in providing classes to CACO.

4. Liaise with MCCS to provide counseling and referral services and hot line support.

5. Liaise with civilian churches and organizations to provide support to members and their families.

6. Assist AMCROSS in message delivery

7. Provide liaison officers to the MOBAC, when activated, to serve as members of the Crisis Action Team (CAT) on a 24-hour basis. The CAT will consist of three watch sections standing eight hour shifts per BO P3440.1A
